DECLARATION PURSUANT TO 37 CFR §1.131

Dear Sir:

I, Vijaya Raghavan, a citizen of India residing at 38 Crestwood Drive, Framingham, MA 01701, hereby declare as follows:

(1) I am one of the inventors of the subject matter described and claimed in the above-identified application, and I am employed by the MathWorks, Inc, the assignee of the above-identified application.

(2) I have reviewed the claims of the above-identified application and confirm that the functionality of the claimed subject matter is included in Stateflow Version 3.0 (R11), a software package developed and released by the MathWorks, Inc.

(3) I have reviewed the internal documentation at the MathWorks, and identified that Stateflow Version 3.0 (R11) and the documentation accompanying Stateflow Version 3.0 (R11) were released to the public on or after May 20, 2000. A copy of the internal documentation is attached hereto.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of this Application for Patent or any patent issuing thereon.

Dear MAAB member,

We are pleased to announce the availability of Stateflow 3.0 and the corresponding Stateflow 3.0 Coder. This is a major upgrade to version 2.0 and addresses many of the issues raised during past MAAB meetings.

Stateflow 3.0 works with R11.1 release of MATLAB (5.3.1) and Simulink (3.0.1). Therefore it is an attractive solution for your on-going projects using the R11 release of The MathWorks Design Automation tools.

Stateflow 3.0 Coder is also a major upgrade intended for production code generation, and is required when using Stateflow 3.0 with RTW.

Regards,

-- Mehran
